<b>Brief description of Project</b> The Botanic Garden seeks a \$55,000 grant to complete planning for a ¼ acre Children's Native Plant Garden for children ages 4 - 7. The Children's Garden will highlight regionally significant indigenous plant communities (riparian, chaparral, oak woodland, and meadow/grassland) and will incorporate interpretive exhibits on plant-animal interactions. The riparian plant community will serve as a central theme because it naturally occurs adjacent to the other plant communities, because water systems are key to the development of the natural environment, and because water is an especially enticing garden feature for children. Parents and children will use an interpretive pamphlet to help guide their experience.		
<b>For Development Projects</b> Land Tenure - Project is: <u>.75</u> acres:  _____ Acres owned in fee simple by Applicant <u>.75</u> Acres available under a <u>permanent free</u> year lease _____ Acres other interest (explain) _____	<b>For Acquisition Projects</b> Project land will be _____ acres  _____ Acres acquired in fee simple by Applicant _____ Acres in other than fee simple (explain) _____
